

The Sechelt Heritage Hidden Groves

Charred bark, up to a foot thick on the largest Douglas firs (some over 700 years old), is the reminder of long ago natural fires. Sunshine Coast residents have passionately resisted plans to harvest these 180 precious acres which today are set aside solely for recreation and education.

When in the Groves you will find: rocky outcrops and mossy plateaus, the Ancient Grove, named trees such as the 'Twister' and the 'Lonely Giant', and the Pine Bluff with its view of Sechelt and beyond. Sharp eyes will spot uncommon plant species.

The Groves are blessed with varied terrain which blocks the sounds of civilization, for the feel of a much larger and more remote forest. A private experience for everyone.

Trails have all been built and maintained by community volunteers with donations for materials coming from Society members, government and local businesses.

Find your way

From downtown Sechelt go back to the traffic lights at Wharf and the highway. Proceed straight ahead on Wharf Street to the first stop sign. Turn right onto Sechelt Inlet Road and keep going—past the Provincial Park until you go up a hill with a left curve. Then you will see the Hidden Grove sign on your right. Turn right into the parking area. (If you see the Sandy Hook sign you have gone 200 feet too far!)

Please Note: There are no washrooms and no garbage disposal. Remove pet waste from public areas and trails.
